

## Quality Policy

CCA-POL-105

Cranecorp Australia Holdings Pty Ltd and its subsidiary companies ("Cranecorp Australia") is a leading service orientated crane hire company, with locations throughout Western Australia, providing holistic crane and lifting solutions, transport and shutdown labour across multi discipline trades, supervision and project management. Whilst serving a diverse customer base, our core focus is in the mining resources maintenance and shutdown services.

Cranecorp Australia is committed to working within the framework of ISO 9001:2015 Quality Management Systems.

The Quality Policy is a public statement of intent to apply consistent processes across the business, to ensure that we:

- Minimise risk by complying with all legislative, statutory and contractual requirements;
- Ensure our clients' requirements are clearly understood, so this enables us to meet and exceed their needs and expectations;
- Strive for continuous improvement by monitoring and reviewing our systems and staying up to date with changes to industry standards;
- Review and evaluate technical advances in lifting techniques and equipment, as to ensure to remain leaders in the field;
- Supply machines that are modern, safe and well maintained to ensure that all lifting activities are carried out safely and efficiently.

Cranecorp Australia is committed to:

- Audits are conducted regularly and demonstrate a high level of compliance;
- There is evidence of best practice being gathered and adopted;
- Establish quality objectives through management review of the Quality Management System to ensure continual improvement of the standard.

It is the company's prime objective to provide a safe, reliable and efficient service, while maintaining a reputable quality in all of its business ventures.
